About the Paul Pierce Truth Foundation

The mission is to provide educational and life-enriching opportunities for disadvantaged youth. Paul’s vision of the Fund is to ensure that opportunities are available for young people to recognize their dreams through mentoring programs, technology and other needs as well as fostering stable and safe environments. About the Magic Johnson Foundation

The Magic Johnson Foundation was established in 1991 as a single-disease organization that worked to raise funds for community-based organizations dealing with HIV/AIDS education and prevention programs. The Foundation has since responded to the growing need to address all aspects of our youth’s lives by expanding its mission. This expanded mission emphasizes the Foundation’s focus on supporting community-based organization and development programs that serve the health, educational and social needs of those residing in minority communities.
